

## ALMUTH

### Press Text

Almuth is a Lady of the Canyon.

Her deep love for country and folk music is evident in every one of her tracks. However, she spins the wheel in her own unique way. And so, Almuth rides through the prairie in a cloud of gritty electric guitars and beats. Beside her: Townes Van Zandt, Dolly Parton, Joni Mitchell, and James Taylor. It's the kind of music that would be playing if *Red Dead Redemption* had a radio station.

In her debut EP "*A Wind That Never Dies*," Almuth presents her very own interpretation of folk music. Fragile melodies meet intricate harmonies. Analog hoofbeats blend with programmed rhythms. Almuth's voice floats above it all, telling tales of the wind, the blossoming, and giving the sunset its color.
